

Joseph Klein

the road in its unfoldings

meta-passacaglia for wind symphony

(1996-97)

to Eugene Corporon
and the North Texas Wind Symphony

Funded in part by grants from The University of North Texas and
The Margaret Fairbank Jory Copying Assistance Program of the American Music Center,
made possible through grants from the National Endowment for the Arts,
Mary Flageler Cary Charitable Trust, and the Pew Charitable Trusts.

duration: c.17'

Program Notes

the road in its unfoldings was composed between April of 1996 and August of 1997 for Eugene Corporon and the North Texas Wind Symphony, and first performed by that ensemble at the University of North Texas on February 26, 1998. The work was supported in part by grants from the University of North Texas and the American Music Center.

the road in its unfoldings is essentially a passacaglia in twenty-one variations. Unlike the Baroque model, however, the subject is frequently obscured and distorted (metrically, registrally, etc.), often beyond recognition, although it is presented in its entirety within each and every variation. Though the work is not serial, the subject itself consists of a twelve-tone row derived from the opening four pitches of the second movement of Stravinsky's *Symphony of Psalms* (C-E♭-B-D), which is presented in inversion as the first four notes of the subject; the remainder of the subject is generated from this opening four-note cell, and is made up entirely of major and minor thirds and sixths. The complete statement of the subject consists of two seven-measure periods of eleven notes each; the second period is related to the first by retrograde-inversion, pivoting around the tritone B♭/E:

This seven-measure periodic structure is reflected in the twenty-one variations, each of which is either seven, fourteen, twenty-one, or twenty-eight measures long.

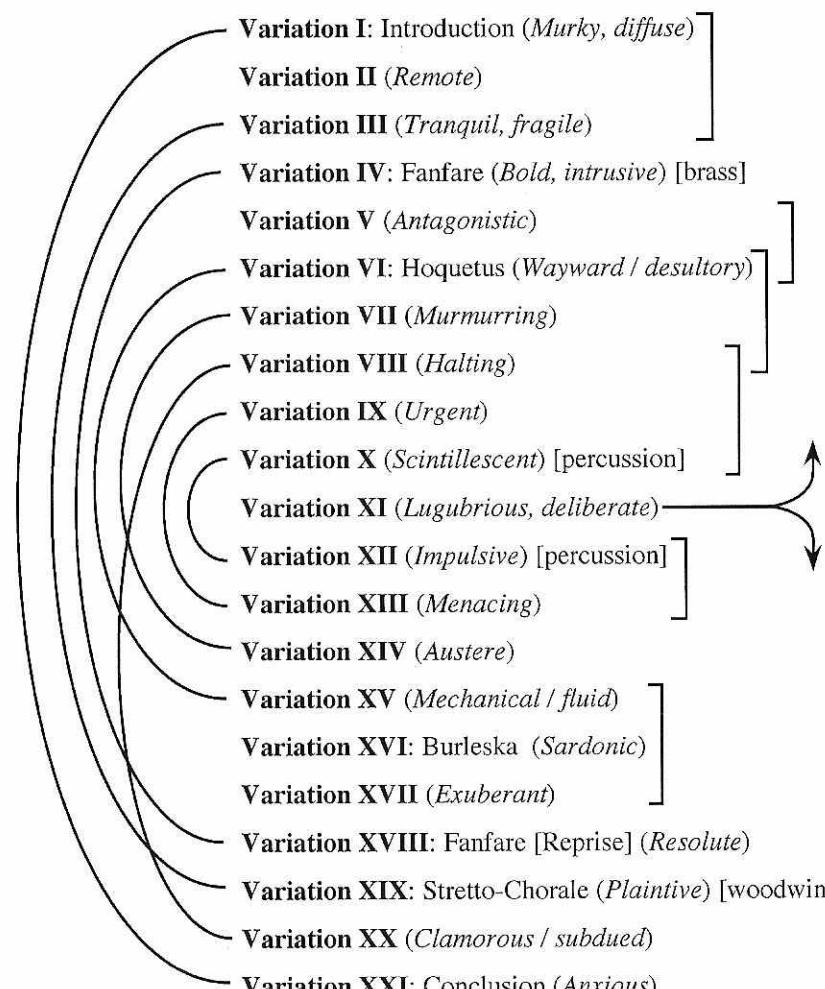

The conceptual model for this work is biologist D'Arcy Wentworth Thompson's book *On Growth and Form* (1917), an elegantly presented exploration of the functional relationships between various organic forms through mathematical paradigms and processes (e.g., Cartesian graphs, algebraic formulae). Though presenting mathematical support for much of the work of Charles Darwin (e.g., *The Origin of Species*, *The Descent of Man*), Thompson's work does not contain the hierarchical implications — nor the contentious religious ramifications — of "evolution" as presented by Darwin; rather, it is an objective analysis of structural phenomena as manifested in a variety of organisms. Analogously, *the road in its unfoldings* explores the transformation ("evolution") of the subject from its fragmented, murky origins, coalescing into a direct thematic statement, then becoming increasingly removed from the prototypical structure as it undergoes further development. The title of the present work is derived from the poem "Volunteers" by Alice Fulton (*Sensual Math*, 1995), part of a sequence which draws upon genetics and evolution as an integral part of its subject matter. The titular line is part of a series of metaphors for the evolutionary process:

*But evolution is a fugue
without finale. News that stays
news. The road in its unfoldings.*

The twenty-one variations are linked by a chain of temporal modulations organized palindromically, with the first and final variations serving as introduction and conclusion: the first ten variations are linked in such a way as to produce a gradual, non-linear *accelerando* (from MM 40 to MM 200), while the final ten variations reverse the process (returning to MM 40 at the conclusion). Each half of the work is also characterized by a gradually ascending ambitus, beginning in the lowest register of the ensemble and concluding in the highest register. Although this process is clearly manifested in the first half, the registral trajectory in the second half follows a less direct path, becoming more erratic as the work progresses. The central variation (XI) acts as a fulcrum in this structure: the sudden and dramatic change in tempo, register, and overall character result in a sense of repose and reflection before the process resumes.

As a way of elucidating this process, there is imbedded within the structure a series of relationships between the variations in the first half of the work and those in the second half (as illustrated below). For example, Variation XVIII is simply a reworking of Variation IV with the addition of woodwinds and percussion. The two percussion variations (X and XII) which flank the central variation are structurally identical, the differences being almost exclusively timbral (the former is for ringing metals, the latter for wood and membrane instruments). Elements of Variation VI reappear throughout Variation VII, and again in Variation VIII (which itself is a composite of three variations — VI, IX, and XVII — representing past, present, and future). Variations are also grouped to form larger structural units: e.g., Variation I through III function as an individual section; transitions between variations differ significantly, some being rather subtle (e.g., between Variations IX and X), others quite abrupt (e.g., between Variations III and IV).

Each variation is also presented as an homage to a different twentieth-century composer, as indicated by the initials which follow. While some of these references may be readily apparent, most are rather subtle, even elusive. In any case, it is has not been the composer's intention to represent the dedicatees through stylistic imitation or overt musical appropriation, but rather to acknowledge significant musical influences.

Instrumentation

Piccolo

3 Flutes (3rd dbl. Piccolo 2)

2 Oboes

English horn

Clarinet in E♭

6 Clarinets in B♭

Bassett horn in F

Bass clarinet in B♭

Contrabass clarinet in E♭

2 Bassoons

Contrabassoon

Soprano saxophone in B♭

Alto saxophone in E♭

Tenor saxophone in B♭

Baritone saxophone in E♭

4 Trumpets in C (1st dbl. Flügelhorn in B♭)

4 Horns in F

3 Tenor trombones

Bass trombone

2 Euphoniums

2 Tubas

6 Percussion

Piano (dbl. Celesta)

Harp

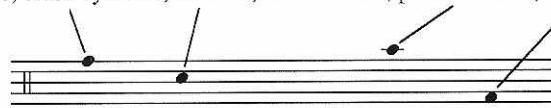

Contrabass (optional)

Percussion:

#1: 5 timpani (I: 32", II: 28", III: 25", IV: 23", V: 20"), 2 cymbals (one low, one high: to be placed on timpani in Variations I and X)

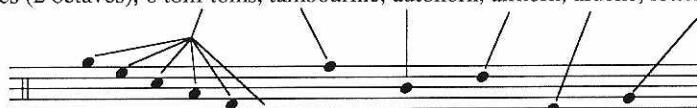

striking implements: soft felt, hard felt, soft yarn, wood.

#2: marimba, vibraphone, crash cymbals, cowbell, slide whistle, police whistle, newspaper (3 small sheets)

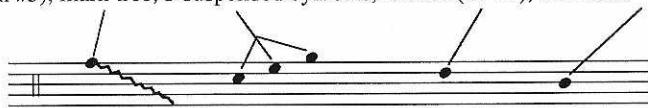

striking implements: soft yarn (2), med. yarn (2), hard yarn (4), med. rubber (4), hard rubber (4), bow (shared w/ #3).

#3: chimes, crotales (2 octaves), 6 tom-toms, tambourine, autohorn, airhorn, afuche, lottery wheel (small)

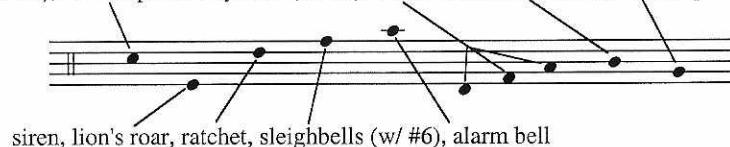

striking implements: chime hammers (2), hard yarn, hard rubber, brass, bow (shared w/ #2).

#4: xylophone, glockenspiel (shared with #5), mark tree, 3 suspended cymbals, ratchet (w/ #5), rain stick

striking implements: soft yarn, hard yarn, hard rubber, hard plastic, wood (SD) sticks, brass, bow.

#5: glockenspiel (shared w/ #4), low suspended cymbal (w/ #6), 3 tam-tams, snare drum, vibraslap,

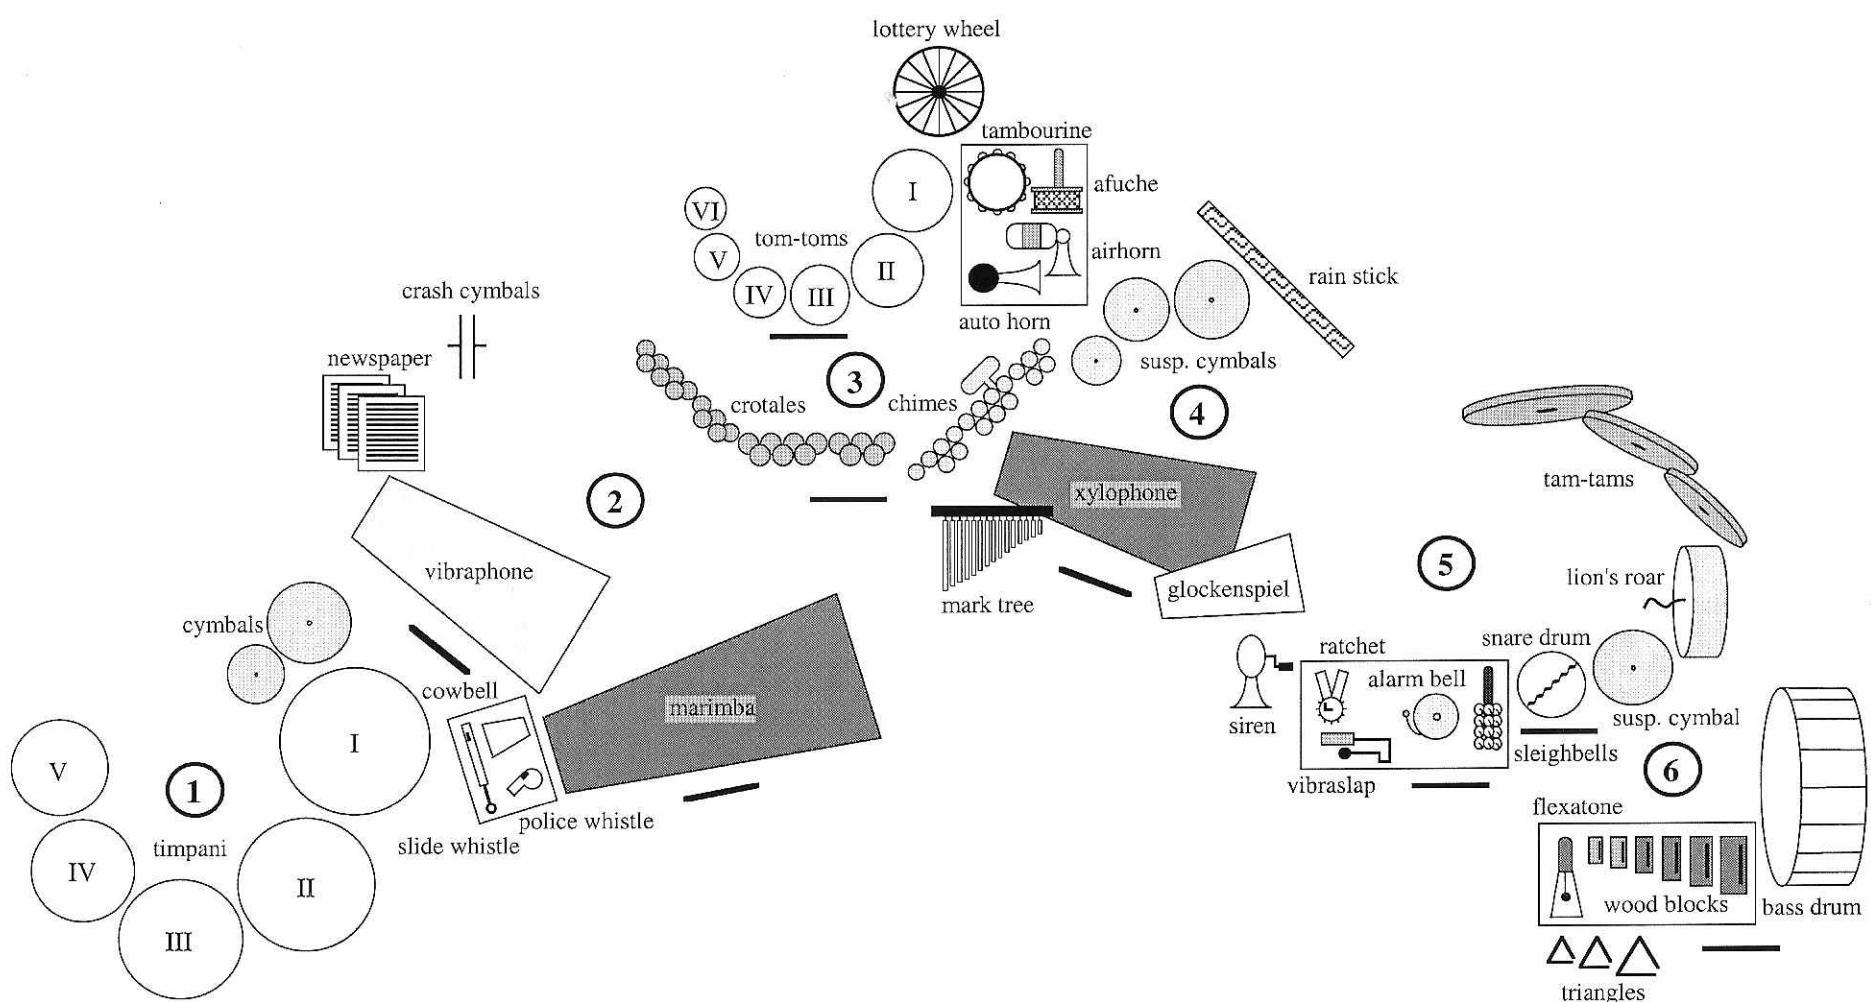

striking implements: med. yarn, wood (SD) sticks, brushes, heavy (tam-tam) beater, bow.

#6: 3 triangles, low suspended cymbal (shared w/ #5), sleighbells (w/ #5), bass drum

4 woodblocks, 2 osage orange woodblocks, flexatone

Suggested Percussion Setup

Symbols

	attack/release unnoticedly		duple subdivision (i.e., equals two eighth-notes)
,	clean break in sound		triple subdivision (i.e., equals three eighth-notes)
<i>flt.</i>	fluttertongue	$\frac{1}{2} v$	brass: half valve
	multiphonic (<i>ad lib.</i>)	+	brass: closed (mute); horn: stopped
	mordent; inverted mordent	○	brass: open; harp: harmonic
→ → →	gradual change from one mode of play to another	I T-V ET-II	trombone: slide positions (T = F trigger; ET = E trigger)
→	rapid change from one mode of play to another		timpani: pedal changes (including indications for lowest and highest pitches)
<i>p±</i>	slight fluctuations around dynamic level indicated (<i>ad lib.</i>)	c	percussion: strike on crown (of cymbal)
	smooth, even portamento/glissando	e→	percussion: scrape along edge (of tam-tam)
	erratic, uneven portamento/glissando, following approximate contours of line		percussion: swirl (brush) in a circular motion
	play beamed group as rapidly as possible		piano/percussion: depress pedal for the duration of the line
	repeat pitch as rapidly as possible (winds: double-tonguing, if possible)		piano/percussion: temporarily release pedal to discontinue resonance
	accelerando (in the duration indicated)		piano/percussion: sudden pedal release
	ritardando (in the duration indicated)		piano/percussion: gradual pedal release
	play material within brackets (rhythms and pitch orderings <i>ad libitum</i>) for the duration of the wavy line		piano: strike inside strings with palm of hand (cluster)
	play material within repeat brackets in the order indicated for the duration of the solid line		piano/harp: rapid glissando downward/upward on the strings, beginning on the pitch indicated
			harp: half-pedal (resulting in loud buzz)

Notes

Accidentals apply only to the note they immediately precede, with the exception of repeated notes.

Score is in C; all instruments sound as written, with the following exceptions:

- piccolo sounds one octave higher than written;
- contrabassoon sounds one octave lower than written;
- glockenspiel sounds two octaves higher than written;
- crotales sound two octaves higher than written;
- xylophone sounds one octave higher than written;
- celesta sounds two octaves higher than written;
- harp harmonics sound one octave higher than written.

Brass players require the following mutes:

- horns: standard mutes, stop mutes (optional);
- trumpets: straight, cup, harmon, plunger;
- tenor trombones: straight, harmon;
- bass trombone: straight, cup, harmon (*ossia*: straight mute with plunger);
- euphoniums: standard mutes;
- tubas: standard mutes.

Bassoon 2 requires extension to play low A (Variations XII and XIX).

Piano requires medium-sized towel to be placed over strings (Variation XXI); muffled effect is desired.

This system contains ten staves of musical notation for various instruments. Measure 246 starts with PC and FL 1 playing eighth-note pairs. OB 1 and Eb CL provide harmonic support. CBCL has sustained notes. BN 1 and CBN play eighth-note pairs. A SAX has eighth-note pairs. TP 1 and HN 1 play eighth-note pairs. PR 2, PR 3, and PR 5 provide harmonic support. Measure 247 begins with a dynamic change.

This system continues the musical score. Measures 250-253 maintain the 6/4 time signature, featuring complex rhythmic patterns with sixteenth-note figures and sustained notes. Measures 254-255 transition to a 2/4 time signature, indicated by large numerals. The instrumentation remains consistent with the previous measures, with various instruments providing harmonic and rhythmic support.

<img alt="Musical score for Variation XVI: Burleska (Sardonic). The score is a multi-page musical score for a large orchestra. It includes parts for various instruments such as PC, FL, OB, EH, Eb CL, CL, BHN, BCL, CBCL, BN, CBN, S SAX, A SAX, T SAX, B SAX, TP, HN, TN, EU, TB, PR 1-6, PF, and HP. The score features large, bold numerals (2, 5, 7, 8, 4, 11, 2, 7, 8) and letters (A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z) scattered across the staves, likely indicating specific performance techniques or sections. The score is set against a grid of measures with various time signatures (e.g., 2/4, 3/4, 4/4, 5/4, 6/4, 7/4, 8/4, 9/4, 10/4, 11/4, 12/4, 13/4, 14/4, 15/4, 16/4, 17/4, 18/4, 19/4, 20/4, 21/4, 22/4,
